

## Catalyst Specification Sheet

**Product name:** RCAT<sup>®</sup>-9003

**Product description:** Claus process catalyst (TiO<sub>2</sub> based)

**Appearance:** Extrudates

**Size:** 3-5 mm

### Chemical and Physical properties

Property	Min	Max	Typical	Unit
TiO <sub>2</sub> + promoter	90	-	-	%
Surface area	-	-	<b>100</b>	m <sup>2</sup> /g
Bulk density	860	960	-	g/l
Crush strength	-	-	<b>100</b>	N
Operating temperature	20	400	-	°C

\*Values of elemental composition are reported on 900°C calcined basis.

### Shipping Information

200 Litre Steel Drum with PE inlay, 180 KG netto per drum, 4 drums on a pallet

### Material Classification

Please refer to a valid Material Safety Data Sheet
